Purifies rooms up to 135 m², 520 m³/h clean air rate (CADR), HEPA & Active Carbon filter, 50% quieter purification

AC3220/10

Highlights

Big power in smaller size

Smaller size, bigger cleaning speed (1), thanks to its innovative double-fan design. With powerful filtration of 520 m³/h (CADR), it can easily handle large spaces of up to 135 m² (2) and can clean a 20 m² room in less than 6 minutes (3).

3 layer HEPA filtration

3 layer filtration made of a pre-filter, HEPA NanoProtect and Active Carbon captures 99.97% of particles as small as 0.003 microns (4) — smaller than the smallest known virus!

Quiet, even at maximum power

Experience 50% less noise with SilentWings technology (1). Inspired by the silent flight of owls, our fan-blade design ensures purification as quiet as 15 dB(A). Even at maximum speed, it's quieter than a normal conversation. (5)

Captures 99.99% of allergens

All-day protection for allergy sufferers. Removes 99.99% of dust-mite, pollen, pet or mould-spore allergens (6), known triggers of allergy or hay fever symptoms (7). ECARF certified allergy-friendly.

Captures viruses from the air

Removes 99.9% of airborne viruses and bacteria. Independently tested to eliminate H1N1 influenza virus (8), Staphylococcus bacteria (9) and 99.99% of SARS-CoV-2, the cause of COVID-19 (10).

Traps smells and gases

The Active Carbon layer captures odours and removes >95% of gas pollutants that hurt indoor air (11): NO₂ from industry and traffic pollution, Toluene or VOCs from house paint, detergents and furniture. Safe and effective: no ions, chemicals or ozone emitted.

Low energy consumption

Enjoy cleaner air while keeping your energy bill low. At maximum power, the air purifier uses only 36 W, less energy than a traditional light bulb.

Smart air quality sensors

AeraSense technology scans the air 1000 x a second to detect pollutants and reports the air quality in real time on the product display or in the app. In Auto mode, the device intelligently chooses the right speed to respond to each situation.

Smart control with Air+ app

Pair the air purifier with the Air+ app for indoor and outdoor air quality monitoring, remote control and voice commands via Google and Alexa. In the app, select Auto+ mode for AI technology that adapts to your routine while minimising noise and energy use.
