

Strive For Perfection

XQ2566X QHD 360Hz **Gaming Monitor for Esports**

Unlike typical 5v5 titles, where higher refresh rate and smoother motion matter more than resolution, Battle Royale benefits more from higher resolution with a good level of smoothness to spot enemies across larger, more complex battlefields.

2K 360 Hz

**FAST
TN**

DyAc 3

See Clearer, React Faster

Compared to any other panel type, a Fast TN panel with DyAc™ 3 Technology delivers clearer, sharper images, free from the afterimages of rapid motion. Paired with QHD (2K) resolution, every detail stays sharp.

Clearer Target Separation

With Color Filter enabled, the XQ2566X reduces play zone color interference, making enemies easier to spot while maintaining natural tones for clearer target separation.

Fortnite

ZOWIE Sync, One Tap Away

With ZOWIE Sync, the XQ2566X applies your monitor settings instantly via tap-to-connect pairing, giving easy access to shared and pro configurations. G Sensor adds precise angle reference for adjustment.
