

Mousetrapper Prime

Prime has everything you want from a Mousetrapper and more. With wireless function and eight programmable buttons, you have plenty of options for configuring your Mousetrapper exactly as you want it. Mousetrapper Prime is an ergonomic alternative to a mouse that prevents repetitive strain injuries and other problems that can occur when you use a conventional mouse.

Benefits of Prime

Everything you want from a Mousetrapper and more. A total of eight programmable buttons give you more options for setting up Mousetrapper to work exactly the way you want. The functions of the buttons can easily be changed via MT Keys.

Prime lets you work wirelessly via USB, and two separate buttons make it easy to scroll and zoom in and out.

The replaceable and wipeable wrist supports on Prime make it easy to keep the product clean. Prime also has a foldable keyboard pad, allowing you to adjust the height to your keyboard.

Facts

- » Width: 18.8 inches
