***Calculation based on the production of the same appliance using bio-based plastic and Tritan™ Renew vs 100% virgin plastic (or virgin polypropylene) and Tritan™.

*****Tritan™ Renew is made with 50% recycled material from certified sources on a mass balance basis.

Highlights

ProBlend technology

ProBlend technology combines 3 key features, custom-designed to create an optimal flow of ingredients for smooth lump-free blends. The ProBlend motor delivers optimal 350-W power to drive the blending flow and evenly circulate all ingredients. The ProBlend blades are uniquely shaped to maximise force and cutting performance. The ProBlend jar is designed with unique ribs to continuously guide ingredients back into the blending flow.

HomeID app

Easy to use

Easy to use: add your ingredients, twist, blend and enjoy.

Detachable blade

All detachable parts are easy to rinse and dishwasher safe.

Sustainably designed

Sustainably designed using bio-based plastics* on the main body and recycled plastics*** on the tumbler, reducing CO2 emissions by as much as 17% during the production process**. This breakthrough material is sure to have a big impact on your kitchen while supporting a more positive outcome for the environment.

Safe and sustainable

Bio-based plastics* are made from biological and renewable resources, like sunflower oil. Used oil left over from cooking is collected and recycled through an eco-friendly process to make it suitable for contact with food. The blender tumbler is designed with Tritan Renew, 100% BPA-free, safe for any type of food contact.

Modern and minimalistic style

Sustainability never looked more stylish, with a silk white matte finish to look sensational in your kitchen.

Pure and simple design

Nature-inspired design with calm colours and natural materials.

Tritan™ Renew Tumbler

Tritan Renew tumbler for on-the-go smoothies. 100% BPA-free, impact- and shatter-resistant and dishwasher safe to withstand 100s of wash cycles.
