Unique refillable fragrance design

The bottom of the ASUS Fragrance Mouse features a fragrance compartment, allowing users to change their preferred essential oils. Users simply need to remove the fragrance compartment and pour in their choice of essential oil. If they wish to replace the scent, they can also remove the compartment for cleaning and switching to a different essential oil, allowing them to fully express their preferences and personality.

Unique refillable fragrance design

Steps

1. Remove the battery cover from your mouse.

2. Take out the independent vial and then remove its silicon lid.

3. Use the bundled dropper to suck out your preferred essential oil and drop it into the vial.

4. Put back the silicon lid and store the vial in the mouse.

5. Install the battery cover on your mouse.

Disclaimer:

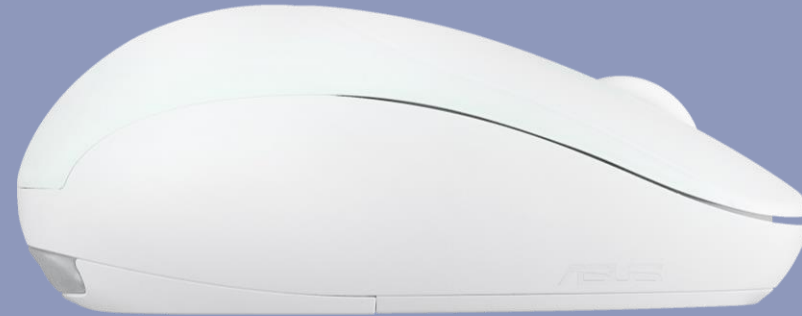

- You can add two drops of the essential oil into the vial for the first time. Ensure the essential oil is fully absorbed before adding more.
- Do not add too much essential oil into the vial to prevent liquid from leaking out.
- Do not squeeze the vial when filled with liquid to prevent liquid from leaking out.
- Do not drop the mouse or vial to avoid damaging the aroma stone inside the vial and causing liquid leakage.
- Do not use 100% pure essential oils.
- Select essential oil that is designed for reed diffusers, ultrasonic diffusers, and aroma stones.

Ergonomic design

The ASUS MD101 Mouse features a contoured thumb rest on the left side, providing ergonomic support for right-handed users while maintaining an elegant silhouette.
