

SMEG DIGITAL SCALE: ACCURACY FOR EVERYDAY COOKING

The **digital scale** is an essential tool for those who love to cook every day, leaving no detail of the preparations overlooked, to achieve consistently surprising and guaranteed successful results.

The **Smeg digital food scale** joins the collection of small appliances and is available in **three colours**, each with an elegant matt finish: white, black and emerald green. With its light and easy to handle design, it complements a contemporary style and caters to the needs of cooking enthusiasts. Whether proudly displayed on the kitchen countertop as a stylish décor piece or effortlessly moved around for convenience, it aims to simplify and enhance your cooking experience.

This distinctive tool with an unmistakable design, is created in collaboration with the **Deepdesign studio**, by Raffaella Mangiarotti and Matteo Bazzicalupo and matches perfectly with the small appliances from the same collection thanks to its **premium finishes**. The **brushed aluminum panel** gives an elegant appearance, while the coloured matte plastic body and base add a touch of style. The **removable steel bowl** serves as an additional container for storing ingredients, while the LED display and brushed aluminum buttons complete its modern and sophisticated design.

Its functions ensure maximum precision when weighing any type of ingredient up to a **maximum weight of 5 kg**, with an incremental accuracy of 1 g. The scale also allows users, through the menu, to select **up to 4 units of measurement** with the possibility of conversion and set the tare measurements when necessary. Finally, the digital kitchen scale features an **automatic stand-by mode**, which helps to extend battery life and save energy.

For effective and long-lasting use, the digital scale is equipped with a rechargeable lithium-ion battery, conveniently chargeable using the 60 cm long **USB cable included**. This ensures users have access to an essential, user-friendly, and reliable tool for daily use.

SMEG

Founded in 1948, SMEG, whose name is the acronym of "Smalterie Metallurgiche Emiliane Guastalla", is a proudly Italian company now in its third generation of the Bertazzoni family.
