Lenovo Legion M220 Wireless RGB Gaming Mouse

Multi-mode, high-grade gaming mouse.

The Lenovo Legion M220 Wireless RGB Gaming Mouse was built for the killers of the leaderboard, the grinders of the night, and the gamers who demand more than “good enough”. Dominating across devices, it strikes fast and hits harder—equipped with triple connection modes, a razor-sharp 5,000 DPI sensor, and dual RGB zones that scream victory in every hue.

Why you need Lenovo Legion M220 Wireless RGB Gaming Mouse

Three ways to kill lag

Bluetooth®. 2.4 GHz wireless. Wired. Switch on the fly, adapt to the fight, and stay locked in with three different connection options no matter where the battle takes you. No disruptions. No excuses.

Performance that cuts deep

Push past the competition with on-the-fly sensitivity shifts. Tear through battles with 80 IPS tracking and a brutal 1000 Hz polling rate. Plus, the battery rages on with 100+ hours* of playtime (RGB off) and recharges back to full in just 2 hours.

RGB that looks epic

Two lighting zones. Unmatched potential. Adjust colors mid-game using just the scroll wheel and side buttons—no clunky software, no waiting. Set it, shred them, and watch your M220 glow like the trophy it is.

* Battery life may vary based on usage.
