

PHILIPS

Philips Maintenance Accessories Calc and Water filter

CA6903/22

- CA6903/01
- No descaling for up to 5000 cups*
- Prolong machine lifetime
- 2 x AquaClean Filters

No descaling for up to 5000 cups*

With each filter you can enjoy up to 625* cups!

- Effortlessly activate the filter with the click-and-go system
- Your machine will not clog thanks to the micro-porous filter
- Micro-porous filter blocks any impurities
- Activating AquaClean deactivates the descaling alarm
- Clear water optimally purified by the Philips original water flow
- Naturally removes calcium thanks to ion-exchange technology
- Only use Philips consumables

*Based on 8 filter replacements as indicated by the machine. Actual number of cups depends on selected coffee varieties, rinsing and cleaning patterns.

Highlights

Easily activate the filter

Such a useful feature could not be quicker to install. Just plug your AquaClean filter into the water tank of your Saeco super-automatic espresso machine, activate it via the user interface and you are ready to enjoy up to 5000 pure cups of coffee without descaling*.

Better taste, for longer

AquaClean will help preserve the coffee taste for longer and prevent your machine from clogging, thanks to innovative features such as the ion-exchange technology, the Philips original water flow and the micro-porous filter.

Filter blocks any impurities

Ridding your brew of any small particles makes a huge difference to your in-cup quality. The micro-porous filter prevents impurities from contaminating the water, so you can guarantee every cup you make will be fresh, clean and delicious.

Descaling alarm

By activating AquaClean filter you automatically deactivate the descaling alarm. Endless, hassle-free coffee of the finest quality is yours to enjoy - and it's not until after 8 filter replacements that the machine will reactivate the descaling process alarm. Machines equipped with AquaClean have a sticker on the water tank.

Clear water, optimally purified

The AquaClean ensures only pure and filtered water flows into your Full Automatic coffee machine and it reduces the need of descaling. With AquaClean, you can enjoy up to 5000* cups without descaling by replacing the filter 8 times.

Naturally removes calcium

The ion-exchange technology removes calcium from the water before it enters your coffee machine, thus preventing its formation. If the filter is replaced in a timely manner when prompted by the machine, you can enjoy up to 625 cups with each filter*.

Philips Original

Please use only Philips consumables to ensure the maximum lifetime and the safety of your Philips and Saeco appliances.

Specifications

General Specification

Product Type: Accessory
Primary Material: Plastic
Warranty: 2 years
Certifications: Yes

Compatibility

Machines: 800 series, 1200 series, 2200 series, 3200 series, 4300 series, 4400 series, 5400 series, 5500 series, GranAroma, Xelsis

Durability

Packaging: 70% recycled materials
User Manual: > 75% recycled paper

Technical Specifications

Power: No
Items in pack: 2
Battery Product: No

Country of Origin

Produced In: China

Weight and Dimensions

Package Length: 15 cm
Package Width: 13 cm
Package Height: 10 cm
