- Maximum speed up to 25 km/h (15.5 mph)
- Range up to approx. 65 km (40.4 miles) due to super Long-Range Battery package
- 10-Inch Tubeless Pneumatic tyres for a smoother ride
- Tyres have additional internal coating for lowering the risk of punctures
- Built-in adapter for fast and easy charging
- Rear-wheel drive motor for the best driving experience
- 20% climbing angle for convenient riding
- Double- and regenerative brake system for more safety and stability
- Two step folding mechanism for easy carrying and storage
- Water resistance rating of IPX5 for the whole body (IPX7 water resistance to its core components)
- Fully integrated twist bell and side reflectors to increase your safety
- Riding modes: eco-, drive-, sport- and walk mode for convenient riding
- Full colour Dashboard to provide you with real time riding information
- Front, side, and rear E-MARK certified reflectors
- Front-, rear and brake LED lights to assure your safety in lowlight environments
- Bluetooth connectivity: vehicle information and firmware upgrades via the Segway-Ninebot app
- Smart Battery Management System closely monitors battery performance to increase safety

The new Ninebot KickScooter MAX G30E II powered by Segway offers you the best solution for comfort riding and long-distance commuting. No more concerns about the battery running low; the KickScooter is equipped with a super Long-Range Battery Pack, including smart charging solutions, to a maximum range of approximately 65 km (40.4 miles). Therefore, the KickScooter MAX G30E II offers the greatest range and distance available in its class while travelling at a top speed of up to 25 km/h (15.5 mph). In addition, not only will the 10 Inch tubeless pneumatic tyres provide you with pleasant rides, but you will also experience less maintenance: the tyre is equipped with an additional jelly layer for a lower risk of punctures. Further features of the Ninebot MAX G30E II include a revolutionary upgrade to the propulsion power, which will make you enjoy greater freedom and convenience when you cruise around on your MAX G30E II. Finally, we have taken into consideration the environmental element. During your ride, the eco-friendly energy recovery system makes sure no power goes to waste, while the Smart Battery Management System closely monitors the battery performance. We have taken great care of the smallest details, so that your traveling comfort and safety can be guaranteed.
