

MPN: MDPVGA2B

Mini Displayport-VGA M-F Black

The Active Mini DisplayPort to VGA Adapter (MDPVGA2B) provides a seamless connection between devices equipped with a Mini DisplayPort output and VGA displays. This adapter actively converts the signal, ensuring compatibility with a wider range of devices and resolutions, making it ideal for connecting older monitors or projectors to newer laptops or graphics cards. Leverage MicroConnect's 20+ years of expertise to guarantee a crystal-clear picture for presentations, work, or home entertainment. Designed with premium materials and adhering to stringent European quality standards, this adapter delivers a reliable and durable solution for all your display connectivity needs. This ensures clear signals and avoids signal degradation, even over extended use.
