Hair Dryer

BHD360/20

Highlights

2100 W of drying power

This 2100 W hair dryer creates powerful airflow for beautiful results every day.

ThermoProtect attachment

The uniquely-designed ThermoProtect attachment powerfully mixes warm and cool air for everyday care. It drops the temperature by 15°C while still drying your hair quickly.

Advanced ionic care

This powerful ionic system generates up to 20 million ions* per drying session, intensifying your hair's shine. So you can enjoy glossy, frizz-free hair.

6 heat and speed settings

Easily pick the combination of heat and speed that works best for your hair and style. Six different settings ensure precise control for tailored styling.

Cool air setting

The cool air setting provides a burst of cold air to finish and hold your style.

14 mm styling nozzle

The slim nozzle precisely focuses the air for quick touch-ups and perfecting small details of your style.

Volume diffuser

The volume diffuser spreads the flow of air across the hair, boosting volume and reducing frizz while drying. For best results, hold the diffuser close to the crown and root area. The diffuser's fine textured pins will add volume, maximise thickness and bounce and help to shape curls.
