Upholstery nozzle	<input checked="" type="checkbox"/>	
Soft dusting brush	<input checked="" type="checkbox"/>	
Accessories holder	<input checked="" type="checkbox"/>	
Small wall bracket	<input checked="" type="checkbox"/>	
Dust sensor	<input checked="" type="checkbox"/>	

Included in the scope of supply.

Auto-sense technology

■ Intelligent dirt detection optimises cleaning performance in auto mode. This mode automatically detects the amount of dirt and adjusts the suction power accordingly in three stages.

Clean Control Display

- The display provides constant updates on the cleaning process and the device status – including the cleaning mode, the degree of dirt on the floor (when in auto mode) and the battery status.
- In auto mode, the display uses a colour code to indicate the degree of dirt: turquoise for none to little, blue for medium and purple for heavy soiling.

180° swivel joint and LED lighting

- The VCS 3 Nano moves effortlessly around any obstacle and lights up even the darkest corners – for thorough cleaning without compromise.

ACCESSORIES FOR VCS 3 NANO COMPLETE
