

Outdoor camera

What's going on out there? Never be in the dark with the weatherproof WiZ security camera – perfect for keeping an eye on your property after nightfall. With the camera's infrared lights, you can see what's happening – even in the dark – while the camera's live view keeps you informed at any time and in any place. Maintain control of your home even when you're away with automated event notifications that you can act on immediately by activating two-way talk or triggering visual alarms using your WiZ lights.

PRODUCT HIGHLIGHTS

- End-to-end encryption
- Full HD video and IR night vision
- Outdoor-rated

Connected outdoor camera to your WiZ smart lighting system

It's not just the WiZ app that can control your camera. Use Amazon Alexa or Google Assistant and stream your camera feed on supported displays. Capabilities and functionalities vary from system to system.

Detect potential security incidents

The WiZ outdoor camera automatically notifies you when motion or sound is detected outside your home. Enjoy peace of mind even when you're away!

See what's happening at home

Check on your home anytime and from anywhere, with our real-time video streaming feature. Experience peace of mind when far away, by assessing all incident notifications, seeing what's going on in your home and avoiding false alarms.

Light alarm works with WiZ Lights

When away on holiday, make it appear that someone is at home by setting your WiZ lights on and off automatically, simulating presence at home to discourage potential intruders. Plus, you can also set your lights to flash should an incident be detected, notifying your neighbours of any unwelcome activity.

Simulate your presence with light

Simulate presence at home with automated scheduling of your lights as part of monitoring routines. The lights can also react to events with a light alarm mode.

Take immediate action

Communicate directly with anyone near the camera while live streaming. The built-in speaker and microphone enables an easy, remote conversation with your family. Or use it to warn any unwanted visitors.

SPECIFICATIONS

DESIGN AND FINISHING

Material: Plastic

MISCELLANEOUS

Especially designed for: Outside

PRODUCT DIMENSIONS AND WEIGHT

Net weight: 0.44 kg

Cable length: 3,000

SERVICE

Warranty: 2 year(s)

TECHNICAL SPECIFICATIONS

IP code: IP54

Class of protection: Class III – Safe

Extra Low Voltage

Camera lens field of view (degrees):

120

Camera adaptor: Yes
