Cleaning on the move

- The 8-litre water tank and integrated rechargeable battery makes cleaning on the go easy – even without a water supply or power connection.
- The tank can be removed for filling from a tap or other water sources and, thanks to the leak-proof cap, it can be transported without worry, e.g. in the car boot.
- Flexible for use in many different cleaning tasks, e.g. for bicycles, garden and camping equipment, dogs or prams.

Integrated lithium-ion battery

- One battery charge gives a runtime of up to 22 minutes, long enough to thoroughly clean several dirty items, such as bicycles or garden furniture.
- The LED light provides information about the current charge status of the battery.
- The USB type C charging socket enables flexible charging even when out and about, e.g. in the car or from a powerbank.

Sophisticated storage concept

- Takes up minimal space in transit and in storage – the device, hose and trigger gun can all be packed away inside the empty water tank.
- The accessory bags, available as optional extras, can also be stored inside the tank.
- Transport with ease and save space in storage.
