*Based on consumer testing in Germany comparing leading One Touch (Coffee + Milk) Full Automatic Espresso Machines (2018).

***Based on 70–82°C.

*****Based on 8 filter replacements as indicated by the machine. Actual number of cups depends on selected coffee varieties, rinsing and cleaning patterns.

*****not included in box contents

Highlights

Intuitive touch display

The irresistible taste and aroma of coffee from fresh beans is just one touch away. Our intuitive touch display allows you to easily select your favourite coffee.

Perfect temperature and aroma

The Aroma Extract system intelligently strikes the optimum balance between brewing temperature and aroma extraction by keeping the water temperature between 90 and 98°C, while regulating the water flow rate, so you can enjoy delicious coffees.

My Coffee Choice

Adjust the strength and quantity of your beverage with the My Coffee Choice menu. Easily choose from three different settings to suit your preferences.

3 aromatic coffees

Enjoy your favourite coffees for your special moments. Whether you crave an espresso, an americano or a latte, your fully-automatic espresso machine delivers a perfect result with no hassle and in no time!

12-step grinder adjustment

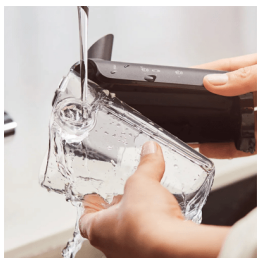

Our durable ceramic grinders can be adjusted in 12 steps, so you can turn your beans into anything from ultra-fine powder to coarse grindings.

100% ceramic grinders

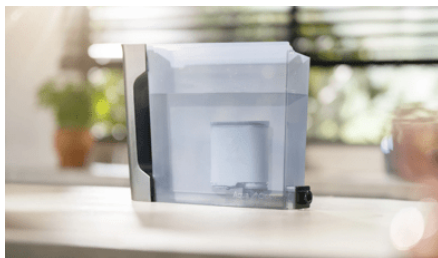

Bring out the full flavour of your coffee with our hard-wearing ceramic grinder. Our sharp-edged grinders extract the best aroma and flavour from your beans. Made from 100% ceramic material which ensures that they last for at least 20.000 cups.

2 parts, no tubes milk system

Our 2 parts milk system doesn't have any tubes or hidden parts and can be cleaned in as little as 15 seconds under the tap* or in the dishwasher.

AquaClean filter

By changing the filter after being prompted by the machine, you will not need to descale your machine for up to 5000 cups***, while enjoying clear and purified water.

Removable brew group

The brew group is the heart of every bean-to-cup coffee machine and should be cleaned regularly. The removable brew group allows you to clean it thoroughly just by rinsing it under the tap.

Specifications

Technical Specifications

Energy Efficiency rating: Class A
Power: 1500 W
Voltage: 230 V
Frequency: 50 Hz
Number in pack: 1

Safety feature

Automatic shut-off timer: Yes
Safety certification: Yes

Weight and Dimensions

Product Length: 433 mm
Product Width: 246 mm
Product Height: 371 mm
Product Weight: 8 kg
Package Length: 491.5 mm
Package Width: 287.5 mm
Package Height: 487 mm
Package Weight: 10-12.5 kg
