TITANIUM AND CERAMIC COATED CLIP AND TUBE INFUSED WITH ESSENTIAL OILS

ON-OFF DUAL PLATES is a double-coated curling iron: the clip made of polished Titanium and the tube made of Ceramic infused with essential oils. Titanium is an excellent heat conductor, which remains constant during each step of styling. The essential oil-enriched ceramic offers an easy and gentle gliding experience on the hair, deeply nourishing the hair while protecting its natural moisture. The 19 mm diameter is ideal for creating tight, tapered curls; the 25 mm diameter is the perfect middle ground for soft ringlets, which when combed gently become more natural-looking waves; however, for large, voluminous ringlets, you will need to use the 33 mm curling iron. The 360° swivel cord allows maximum freedom of movement, while the anti-burn tip allows it to be handled with total safety.
