Highlights

AquaClean filter

Our new and patented innovation, the AquaClean water filter, ensures you make the most out of your full automatic coffee machine. By changing the filter when prompted by the machine, you will not need to descale your machine for up to 5000 cups, while getting the benefit of clear and purified water. As an added benefit, the descaling notification alarm is automatically deactivated once AquaClean is installed in your coffee machine

Lubricating grease

With the lubricating grease you can keep the brew group of your espresso machine in perfect condition. The grease is absolutely consumer safe.

Cleaner water for your machine

The water filter extends the lifespan of your espresso machine, ensuring you can enjoy the best-tasting coffee for longer.

Easy maintenance

The maintenance kit will help you maintain your coffee machine at its best over time, by assuring you have every cleaning element at hand when you need it.

Philips Original

Please use only Philips consumables to ensure the maximum lifetime and the safety of your Philips and Saeco appliances.

Protects espresso machines

Philips coffee oil remover tablets and milk circuit cleaner powder keep your espresso machine working efficiently for best results. We recommend to carry out these cycles at least once a month

Maintain the coffee taste

Regular maintenance ensures the best taste and aroma from your Philips and Saeco espresso machine.
