- Easy-to-read water level indicator
- Designed with safety and sustainability in mind
- Modern and minimalistic style
- Pure and simple design

^{*1}Calculation based on the production of the same appliance using bioplastic vs 100% virgin plastic (or virgin polypropylene)

^{**2}Main body made from 100% PP plastic from certified bio-based sources, on a mass balance basis (BioPP is 82% of total plastic).

100% Bio-based plastics², 1.2 L/10 large cup capacity, Automatic shut-off, Silk white matt finish

HD5120/00

Highlights

Enjoy great taste and aroma

The smart nozzle inside the jug circulates the inflowing coffee evenly throughout the jug for an optimal, consistent aroma, from the first to the last cup.

Energy efficient

Automatic shut-off feature turns the appliance off after 30 minutes to help save energy and provide extra safety. A full jug is brewed in 10 minutes to further save energy.

Recyclable and Durable

Sustainably designed using 100% Bio-based plastics² to reduce its CO2 footprint by 24%¹ during the production process. This breakthrough material is sure to have a big impact on your kitchen while supporting a more positive outcome for the environment.

Large 1.2 L capacity

This coffee maker can brew from 2 cups to 10 large or 15 small cups of coffee, with a maximum capacity of 1.2 litres. Even with its large capacity, its compact design takes up minimal space on your countertop.

Drip stop

The drip stop feature allows you to pour a cup of coffee before the full brewing cycle is finished, preventing coffee from spilling.

External water level indicator

The easy-to-read water level indicator allows you to fill the water tank to your desired level, ensuring that you don't waste energy and brew only the amount of coffee you need.

Safe and Sustainable

100% Bio-based plastics² are made from biological and renewable resources, like sunflower oil. Used oil left over from cooking, and other plant waste, are collected and recycled through an eco-friendly process to make it suitable for contact with food. The automatic shut-off feature turns the appliance off after 30 minutes to help save energy and provide extra safety.

Modern and Minimalistic

Sustainability never looked more stylish, with silk white matt finish to look sensational in your kitchen.

Pure and Simple

Nature-inspired design with calm colours and natural materials. Includes detachable lid and glass jug - each designed for easy use and cleaning. Philips Eco Conscious Collection awarded IF design award and Red Dot in 2022.

Specifications

Weight and Dimensions

Product Width: 17.3 cm
Package Length: 21.4 cm
Product Weight: 2050 g
Package Height: 39 cm
Product Height: 34.6 cm
Package Width: 35.2 cm
Product Length: 32.2 cm
Package Weight: 1112 g

General Specification

Warranty: 2 years
Capacity Water tank: 1320 ml
Primary Material: Plastic

Technical Specifications

Power: 1000 W
Frequency: 50-60Hz
Battery Product: No
Voltage: 220-240 V

Safety feature

Automatic shut-off: Yes

Country of Origin

Produced In: China
