

Mi Vacuum Cleaner G10/G9 HEPA Kit

A kit includes one HEPA filter and two pre-HEPA filters

ID: 30430 SKU: BHR4773GL

Pre-HEPA Filter

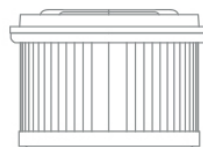

- The pre-HEPA filter works as the first barrier to stop big particles, and it helps to lengthen the lifetime of HEPA filter;
- Pre-HEPA filters are recommended to be changed every 9 months.

Washable and Economical

- Both the pre-HEPA and HEPA filters are washable and budget friendly;
- Re-install the HEPA before it's completely dry.

H12 HEPA Filter

- H12 HEPA filter catches particles down to 0.3 microns in size, allowing cleaner air to pass through;
- HEPA filters are recommended to be changed every 18 months.
