

DREAME

Pocket High-Speed Hair Dryer

Portable, professional, powerful, all in one Pocket.

Pocket

High-Speed Hair Dryer

Pocket, a compact, powerful hair dryer, ensures rapid, safe drying with negative ions and an NTC thermistor. With intuitive controls, 5 modes*, and 2 nozzles, it's perfect for personal use or gifting and comes with a chic bag for easy storage.

*5 modes: Cold Air Mode, Warm Air Mode, Hot Air Modes, Hot & Cold Cycling Mode, plus an Instant Cold Air Mode.

Key Features

Compact, Lightweight, Foldable

Pocket, weighing only 300g and featuring a 50mm compact body, folds easily for travel. Its 'N' is for storage, the '1' form is for curls, and the '7' shape styling is for sleek finishes.

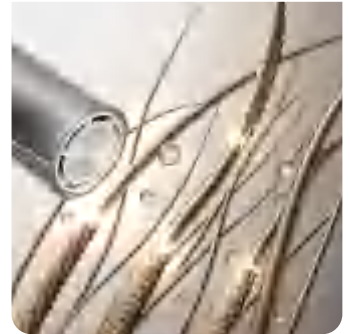

2 Nozzles for Different Hairstyles

Elevate your hair care with our versatile nozzles – unfrizz nozzle for a sleek finish, curling for natural curls. Perfect for quick but elegant styling during your travels.

Quick Dry, Instant Style

Dry short hair in 40 seconds with Pocket's 110,000RPM motor. The 70m/s winds speed up drying and reduce heat damage, ensuring quick style retention after washing.

Negative Ions Care for Your Hair

300,000,000* negative ions/cm³ neutralize static and smooth your hair. These ions seal hair cuticles, leaving your hair smoother, shinier, and less frizz.

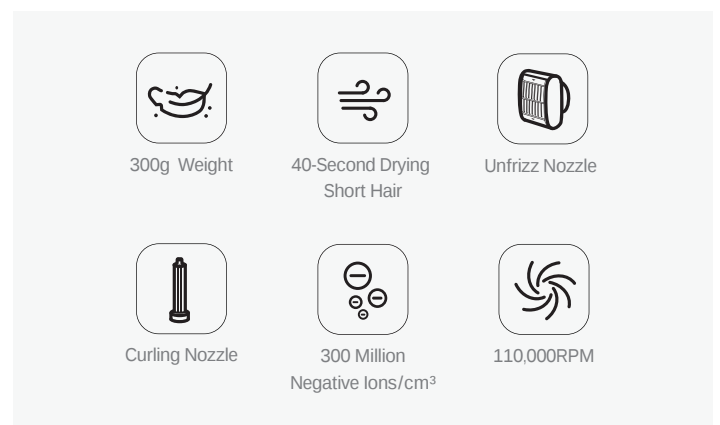

*40 seconds: Based on testing on short-length hair in a controlled environment. Actual time may vary depending on the environment and hair texture, thickness, and length.

*Figures in this page are based on tests in Dreame Lab.
