- Drip stop to prevent juice from dripping
- All removable parts are dishwasher safe

*Compared to Avance collection juicer HR1869/70, HR1869/71, HR1869/73

Highlights

Compact design

At only half the size*, this juicer takes up limited space. You can leave it on your kitchen counter top or store it easily.

Direct serve

This juicer allows you to use your own glass (max. height 12 cm). Place it directly under the integrated tap and you are ready to juice.

Juice up to 1.5 L in one go

Save time and juice more with less effort. This fruit juicer machine can make up to 1.5L of juice in one session without needing to empty the pulp container. It’s ideal for making multiple servings. Great for busy mornings or hosting friends and family.

QuickClean technology

The Philips juicer is designed for easy cleaning thanks to QuickClean technology. Cleaning can now be done within 1 minute, thanks to the integrated pulp container and smooth surfaces.

QuickClean sieve

A lot of pulp fibres usually get stuck in the sieve, which makes it very difficult to clean. Thanks to the innovative QuickClean technology, all surfaces of the sieve are smooth, which helps you wipe away the fibres with a standard kitchen sponge.

Integrated pulp container

The pulp will all be collected in the only place where it should be: in the pulp container of your Philips juicer. That means you no longer need to remove pulp from other parts such as the lid. Due to the round design and smooth surfaces without nooks and crannies, the pulp is easy to reach and the container is much easier to clean.

Smooth and easy to clean

The juicer is designed with round shapes and smooth surfaces to facilitate easy rinsing under the tap.

See-through pulp container

Enjoy a true interactive juicing experience. The lid and the pulp container are transparent so you can see your fruits and vegetables being juiced. You also directly see when the container is full, which means it is time to empty it.

Drip stop spout

When activated, the drip stop will prevent the juicer from dripping. The drip stop spout is very easy to clean as it is detachable and it is made of dishwasher-safe materials. With one simple move, you can prevent the juice from dripping and keep your counter top clean.

Specifications

General Specification

Primary Material: Plastic
Pre-programmed settings: 0–1
Product Type: Juice Extractor
Non-slip feet: yes
Cord length: 80 cm
Dishwasher-safe parts: Yes
Jar material: Plastic
Blade Material: Stainless Steel
Pulse function: n/a
Detachable blades: No
Warranty: yes
EU declaration of conformity: Yes

Technical Specifications

Power: 500 W
Voltage: 220/240 V
Frequency: 50/60 Hz
Battery Product: No

Weight and Dimensions

Product Length: 230 mm
Product Width: 190 mm
Product Height: 300 mm
Product Weight: 2037 g
Package Length: 233 mm
Package Width: 420 mm
Package Height: 233 mm
Package Weight: 1.9 kg

Country of Origin

Produced In: China

Safety feature

Automatic blade stop: No
