BTV-230 User manual

Safety information

Please read the safety instructions carefully before using the product for the first time and keep the instructions for future reference.

- 1. This product is not a toy. Keep it out of reach of children.
- 2. Warning: This product includes lithium polymer batteries.
- 3. Keep product out of the reach of children and pets to avoid chewing and swallowing.
- 4. Product operating and storage temperature is from 0 degree Celsius to 40 degree Celsius. Under and over this temperature might affect the function.
- 5. Never open the product. Touching the inside electrics can cause electric shock. Repairs or service should only be performed by qualified personnel.
- 6. Do not expose to heat, water, moisture, direct sunlight!
- 7. Please protect your ears against loud volume. Loud volume can damage your ears and risk in hearing loss.
- 8. Bluetooth wireless technology operates within a range of about 10 m (30 feet). The maximum communication distance may vary depending on the presence of obstacles (people, metal objects, walls, etc.) or the electromagnetic environment.
- 9. Microwaves emitting from a Bluetooth device may affect the operation of electronic medical devices.
- 10. The unit is not waterproof. If water or foreign objects enter the unit, it may result in fire or electric shock. If water or a foreign object enters the unit, stop use immediately.
- 11. Only charge with supplied USB cable.
- 12. Do not use non original accessories together with the product as this can make the product functionality abnormal.

Specifications

Output power: 20 W

Power supply: Li-ion battery, 3000 mAh

RMS power: 2 x 5 W

Frequency response: 20 Hz-20 KHz

Bluetooth version: 5.0

Bluetooth operating range: 10 m

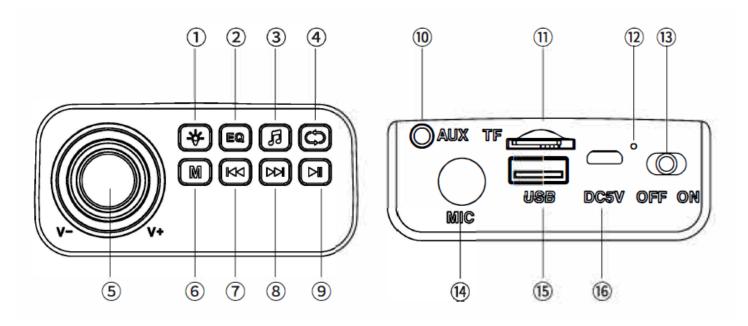

Music playing time: 3-3.5 hours

Charging time: 5-6 hours

Dimensions: 154 x 144 x 342 mm

Weight: 1480 g

Electric and electronic equipment and included batteries contains materials, components and substances that can be hazardous to your health and the environment, if the waste material (discarded electric and electronic equipment and batteries) is not handled correctly.

Electric and electronic equipment and batteries is marked with the crossed out trash can symbol, seen above. This symbol signifies that electric and electronic equipment and batteries should not be disposed of with other household waste, but should be disposed of separately.

As the end user it is important that you submit your used batteries to the appropriate and designated facility. In this manner you make sure that the batteries are recycled in accordance with legislature and will not harm the environment.

All cities have established collection points, where electric and electronic equipment and batteries can either be submitted free of charge at recycling stations and other collection sites, or be collected from the households. Additional information is available at the technical department of your city.

Hereby, Denver A/S declares that the radio equipment type BTV-230 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: denver.eu and then click the search ICON on topline of website. Write model number: BTV-230. Now enter product page, and RED directive is found under downloads/other downloads.

Operating Frequency Range: 20HZ-20KHZ

Max Output Power:40dBm
