HEPA13 filter captures >99.95% of fine dust

- Allergy H13 exhaust filter for excellent filtration
- s-filter® standard fit for easy replacement
- Change every 12 months for continued performance
- Non-washable filter

Highlights

Allergy H13 exhaust filter

The Allergy H13 filter captures more than 99.95% of fine dust, which other filters simply recirculate back into the air of your home. It traps the fine particles, such as pollens and dust mites, which trigger allergy and asthma symptoms. The filter should be replaced once a year.

s-filter® standard fit

s-filter® is a standard exhaust filter that is widely available and carries an easily recognisable logo. It fits several ranges of vacuum cleaners from Philips, as well as vacuum cleaners from Electrolux, AEG, Volta and Tornado.

Change every 12 months

For optimal performance and filtration, we advise to change the filter every 12 months.

Non-washable

The filter does not need to be washed. It has a lifetime of 1 year, after which it needs to be replaced. Washing the filter can damage it.

Specifications

Country of Origin

Produced In: Sweden

Compatibility

Included Accessories 1: 1 x Exhaust HEPA filter

General Specification

Product Type: s-filter® exhaust filter

Compatible with: Performer - FC9150, FC9170, FC9174, FC9176; Performer Expert - FC8720, FC8728; PerformerPro - FC9180, FC9199; Performer Ultimate - FC8921, FC8925, FC8941, FC8957, 7000 Series, Performer Silent - FC8780, FC8781, FC8782, FC8783, FC8784, FC8785, FC8786, FC8787, FC8789; 8000 Series, Performer (LED) - XD8121, XD8122, XD8142, XD8152, XD8022, XD8042, XD8052, 9000 Series, PowerPro/Marathon Ultimate - FC9911, FC9912, FC9925, FC9928, FC9929, FC9932, XB9125, XB9145, XB9154, XB9155, XB9185, Marathon - FC9200, FC9225; PowerPro Expert - FC9712 – FC9714, FC9720 – FC9725; PowerPro - FC8760 – FC8770
