Highlights

Full breakfast set available

Explore our full 3000 Series breakfast set with matching toaster and drip coffee maker. Designed to start your day in style!

1.7 L capacity

From brewing tea to preparing dinner, the ample 1.7 L kettle capacity is family sized for everyone to enjoy.

Flat heating element

The flat, stainless steel heating element is concealed for fast boiling and effortless cleaning. Keep water fresh and clean before, during and after every use.

Boil-dry protection

Don't worry about a thing. The boil-dry mechanism prevents overheating by automatically shutting the kettle off when your water is ready or when there's no water left inside.

Lighted window

The lighted window is a fun and stylish touch to fill exactly the amount of water you need. Save time, water and energy every time you boil.

Lid release button

Opening the kettle lid for refilling is simple and intuitive with a button located conveniently on the handle. Whether you're left or right-handed, simply pop up the lid and hold under the tap to refill water, all with just one hand.

360° pirouette base

Moving the kettle around is as easy as placing it back to the base from any angle, thanks to the cordless kettle and its 360° pirouette base.

Removable filter

Every drop is free from impurities and water scale. Simply remove the filter and rinse clean anytime.

Lighted on/off switch

The on/off switch lights up when the kettle is working and shuts off when ready to pour.
