

Detects pets, and humans,
in an instant.

Privacy is Our Priority

Your privacy is something that we value as much as you do.

That's why we've taken every step to ensure your videos are kept in private. Stored locally. But accessible anytime, anywhere, via a secure 256-bit encrypted connection.

And this is just the start of our commitment to protect you, your family, and your privacy.

Know When You Are Needed

The built-in AI notifies you of excessive noise levels so you know when your little one needs some attention.

Instant Detection

As soon as motion is detected the camera will start recording and push a notification in case you want to see what is happening.

Instant Detection

As soon as motion is detected the camera will start recording and push a notification in case you want to see what is happening.

Sight at Night

Keep an eye on any room, even in low light settings.

Communicate From Your Camera

Speak in real-time to anyone who passes via the camera's built-in two-way audio.

Instant Mobile Alerts

Notifies you in seconds when suspicious motions are detected.

Dual Storage Options

Save your recordings locally or in the cloud.

Follows the Action

When motion is detected the camera automatically tracks and follows the moving object.
