EP2220/10

Highlights

Classic milk frother

The Classic Milk Frother dispenses steam, allowing you to easily prepare silky smooth milk froth for your cappuccino. What's more? With only two parts, the Classic Milk Frother is also easy to clean.

Intuitive touch display

The irresistible taste and aroma of coffee from fresh beans is just one touch away. Our intuitive touch display allows you to easily select your favourite coffee.

My Coffee Choice

Adjust the strength and quantity of your beverage with the My Coffee Choice menu. Easily choose from three different settings to suit your preferences.

12-step grinder adjustment

Our durable ceramic grinders can be adjusted in 12 steps, so you can turn your beans into anything from ultra-fine powder to coarse grindings.

Perfect temperature and aroma

The Aroma Extract system intelligently strikes the optimum balance between brewing temperature and aroma extraction by keeping the water temperature between 90 and 98°C, while regulating the water flow rate, so you can enjoy delicious coffees.

100% ceramic grinders

Bring out the full flavour of your coffee with our hard-wearing ceramic grinder. Our sharp-edged grinders extract the best aroma and flavour from your beans. Made from 100% ceramic material which ensures that they last for at least 20,000 cups.

Preserve beans' aroma

The new Aroma seal protects your favourite coffee beans and makes sure they preserve their original aroma over time, while reducing the grinder noise.

Removable brew group

The brew group is the heart of every bean-to-cup coffee machine and should be cleaned regularly. The removable brew group allows you to clean it thoroughly just by rinsing it under the tap.

Automatic descaling alarm

It's easy to clean and maintain your coffee machine with the automatic programme that notifies you when you have to descale it. You can adjust the frequency of this procedure to match the water hardness at home.

Specifications

Safety feature

Automatic shut-off timer: Yes
Safety certification: Yes

Technical Specifications

Energy Efficiency rating: Class A
Power: 1500 W
Voltage: 230 V
Frequency: 50 Hz
Number in pack: 1

Weight and Dimensions

Product Length: 433 mm
Product Width: 246 mm
Product Height: 371 mm
Product Weight: 7.5 kg
Package Length: 491.5 mm
Package Width: 287.5 mm
Package Height: 487 mm
Package Weight: 10-12.3 kg

Country of Origin

Produced In: China/Romania

Durability
