Product Description

Ideal for professionals and organizations seeking physical security solutions that do not hinder port access or stability, the Slim NanoSaver® 2.0 EQ Keyed Laptop Lock enhances security for ultra-thin devices. The Slim NanoSaver® 2.0 EQ lock contains only 7.5g of plastic versus 36g in prior generation, equalling a 78% reduction in plastic*. The cable and lock body are crafted from strong stainless steel and the lock is delivered in Forest Stewardship Council (FSC®) certified packaging. The Slim Nano lockhead allows the laptop to lie flat and stable and ensures full access to valuable ports. Every Kensington lock is precision-engineered to guarantee compliance with rigorous industry standards for strength, physical endurance and mechanical resilience. * Plastic removed from cable jacket, crimp cover, ferrule cover and key cover.

Features

- The Slim NanoSaver® 2.0 EQ lock contains only 7.5g of plastic versus 36g in prior generation, equaling a 78% reduction in plastic* *Plastic removed from cable jacket, crimp cover, ferrule cover and key cover.
- 1.8m (6') stainless steel cable resists cutting attempts and provides ample length for easy anchoring.
- Does not block I/O ports and allows device to lie flat and stable.
- Unique lock engagement creates a strong connection to device frame to resist and deter theft.
- Verified and tested to resist and deter theft.
- 5mm keying system simplifies key management and thwarts picking attempts.
- Register & Retrieve™ allows for quick, secure and free key replacement.
- Master Keyed (K60631M) option available for IT administrators.
- 5-Year Limited Warranty. This warranty does not affect your statutory rights.
