UPC: 810156700019

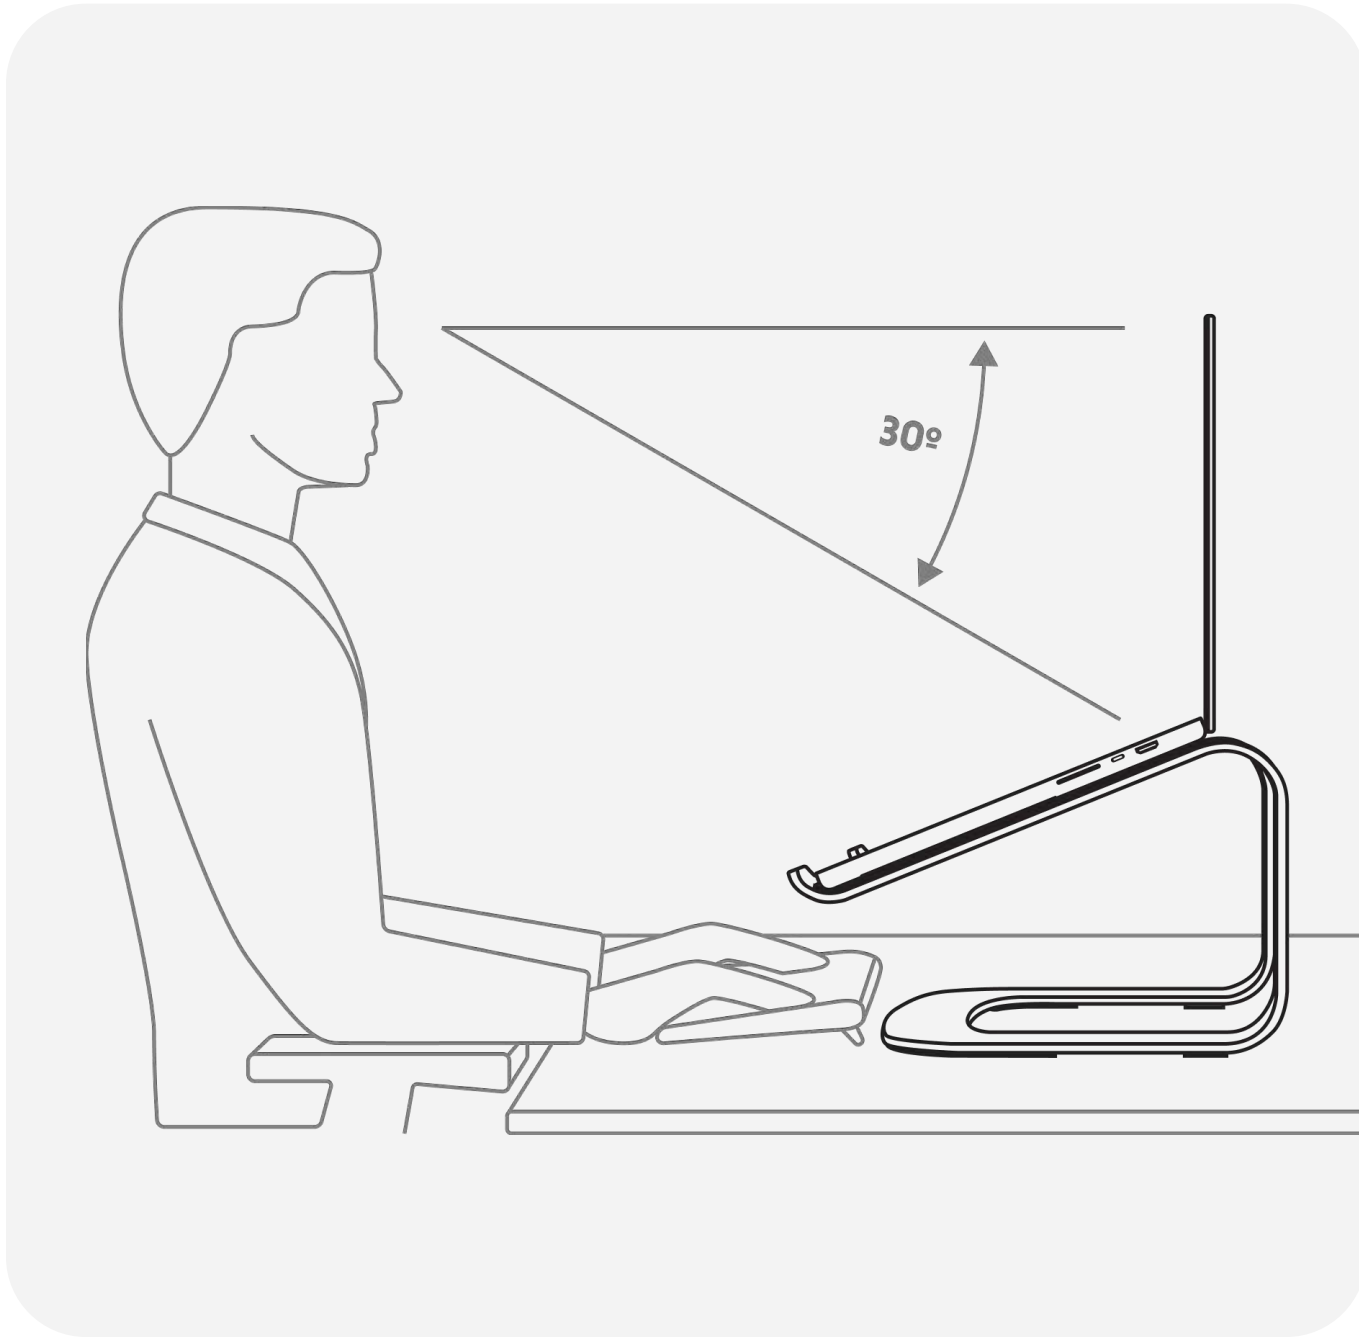

Ergonomically Designed Laptop Stand that Elevates MacBooks up to 16"

Elevate Your Desk Setup

Elevating your MacBook or laptop makes it easier to pair with a keyboard, mouse, or other tech accessories. It also positions webcams perfectly at eye level. Pair your laptop with an external monitor for the perfect working set up, helping to increase productivity and efficiency.

Minimalist, Ergonomic Design

Elevate your laptop up to an ergonomic standard of 5.9" off your desk, positioning the device at an ideal angle for viewing and typing. Create the perfect desk set up that allows you to sit up straight and look directly at the screen.

Premium and Sturdy Aluminum Design

A fixed-height stand made from premium aluminum. Featuring a sturdy construction that's strong enough to type on.

No-Slip Silicone Grips

Designed with non-slip silicone grips on the bottom of the stand as well as the arms. Along with raised edges, it prevents your laptop from moving around and coming off the stand.

Improve Airflow for Optimal Cooling

The design of the stand allows the laptop's base to remain exposed, optimizing its cooling capabilities and stopping it from overheating.

Designed for MacBooks and laptops up to 16"

Fully compatible with laptops up to 16" in size including MacBooks.
