

# HyperX Cloud Alpha 2 - Wireless Gaming Headset

## 250 HOURS OF OUTCLASSING THE COMPETITION.

Stay immersed, hear and control every detail, and maximize your performance with the HyperX Cloud Alpha 2 Wireless. Designed to never take you out of your game with industry-leading 250 hours<sup>2</sup> of battery life, meaning fewer interruptions and more playtime, 2x longer battery life than competitors' gaming headsets<sup>4</sup>. The multi-layer 53mm dual-chamber drivers provide immersive, high-fidelity sound with deep bass and crisp highs, ensuring you never miss a single in-game cue. The customizable RGB base station acts as your command center, letting you fine-tune your audio settings, adjust volume, and switch between devices seamlessly. This is the first reprogrammable RGB Base Station on a wireless gaming headset<sup>5</sup>. Whether gaming, streaming, or multitasking across devices, the HyperX Cloud Alpha 2 Wireless delivers superior performance, comfort, and innovative control to keep you ahead of the competition. It redefines gaming audio with simultaneous 2.4GHz and Bluetooth<sup>1</sup> connectivity, allowing you to seamlessly listen to music, podcasts, or take calls on your phone while fully immersed in your game on PC or console.

# Key features

#### Up to 250 Hours<sup>2</sup> of Battery Life on a Single Charge

Enjoy up to 250 hours<sup>2</sup> in 2.4GHz mode or 125 hours<sup>2</sup> with simultaneous connection, keeping you powered for marathon sessions without interruptions. 2x longer battery life than competitors' gaming headsets<sup>4</sup>.

#### Customize Your Setup with an included RGB Base Station

The RGB Base Station is an audio control hub featuring customizable RGB lighting, programmable buttons and macros, seamless device switching, and onboard controls, ensuring a smooth and uninterrupted gaming experience. This is the first reprogrammable RGB Base Station for a wireless gaming headset. <sup>5</sup>

## Tune and optimize with HyperX NGENUITY $^3$

Do even more with HyperX NGENUNITY<sup>3</sup>, giving you more options to play around with and personalize like EQs, audio controls, and lighting controls.

#### Durable Metal Frame

Built to last with a steel headband and aluminum forks to with stand long-term use.  $\label{eq:built}$ 

# Multi-layer 53mm Dual Chamber Drivers with Spatial Audio by HyperX NGFNI $UTV^3$

Experience premium, high-fidelity sound with our HyperX multi-layer composite design and 53 mm drivers – engineered to reduce distortion to the lowest level. And HyperX  ${\sf NGENUITY}^3$  gives you spatial audio that immerses you in the game with pinpoint accuracy for every sound.

### Simultaneous 2.4 GHz and Bluetooth<sup>1</sup> Connections

Stay connected without interruptions—game with low latency 2.4 GHz performance on one device via USB-C or USB-A while handling calls or music with Bluetooth<sup>1</sup> on another.

#### Signature HyperX Comfort

Breathable microfiber earpads and a memory foam headband ensure all-day comfort with 90° rotating earcups for a perfect fit.

#### Ultra-Clear and Convenient Communication

The versatile detachable 10mm boom mic features an LED mic mute indicator and a built-in mesh filter to capture high-quality audio for clear voice chat and calls. Use the boom mic in both 2.4 GHz and Bluetooth 1 modes for optimal mic performance or go boomless for convenience.
