Save sevenfold

All ports can be switched on and off individually by switch during operation without affecting the function of the other ports. This can save a considerable amount of energy in the long run.

Sevenfold power

The IB-HUB1701-C3 not only offers 7 additional USB Type-A ports for connecting various devices and external hard drives, for example, it also provides the BC 1.2 charging standard via each individual port. This means that small mobile devices can also be charged.

A becomes C

With the practical new 1-metre USB cable, you can now also dock with computers that only have a USB Type-C® interface. The small USB Type-A to Type-C® adapter on the cable makes it possible and expands your possibilities.
