Our keyboard is not only compact and functional, but also carefully designed to provide you with a superior typing experience without any undesirable noise. The EVA switch foam surrounding each mechanical switch together with the IXPE foam pad

Discover the ultimate typing experience with our 60% keyboard – designed for perfection in both sound and feel!

Our keyboard is not only compact and functional, but also carefully designed to provide you with a superior typing experience without any distracting noise. Here are some of the amazing features that make it the perfect choice for both gaming and productivity:

60% Layout – The compact design saves space and provides you with a clean and minimalist workspace without compromising functionality.

Two-Level Adjustable Back Feet – Customize your typing angle for an ergonomic and comfortable position, whether you're working or gaming.

Laser-Etched Keycaps – Durable and tough keycaps that are laser-etched to ensure long-lasting durability and clear visibility.

Pre-Lubed Hot-Swappable KTT Switches – Quickly and easily switch between different switches to customize the feel of your keyboard. The pre-lubed switches provide a smooth and quiet typing experience right out of the box.

Noise-Dampening IXPE and EVA Switch Foams – The keyboard is built with smart construction that minimizes unwanted sounds. The IXPE and EVA foam between each switch absorbs vibrations and dampens the sound of each keystroke, eliminating the sharp, ringing, or rattling noises that can occur during fast typing or intense gaming.

RGB Lighting with Optional Software – Customize your keyboard lighting to match your style or create the perfect atmosphere with easy-to-use software.

N-Key Rollover – Register every keystroke simultaneously without risking any loss of function, even during the fastest presses.

Keystroke Lifespan: 50 Million Keystrokes – Built to last. Each key is designed to withstand up to 50 million keystrokes, making it a long-term investment for both work and gaming.

SPECIFICATIONS

Color	Black
Product depth	103 mm
Product height	40 mm
Product weight	0.55 kg
Product width	293 mm
Warranty	5 years
Keyboard Size	60%
Language Layout	Nordic
Led light	RGB
Connectivity	1.8m cable
USB Polling rate	1000 Hz
OS Compatibility	Windows 7/8/10/11
Number of Buttons	62
Item type	Keyboard
Connectivity technology	1.8m cable, USB-A
