

COMPACT PERSONAL BLENDER: style and versatility always at hand

The **PBF01 compact personal blender** is the latest addition to the Smeg family of small appliances designed to meet the needs of a healthy and dynamic lifestyle, combining marked aesthetic research with versatility of use.

The personal blender is **compact** in **size** and features a distinctive design, the result of the company's solid know-how in the production of household appliances with a Made in Italy design.

The blender is available in **seven colours**: pastel colours such as cream, green, pink, and blue and bold shades such as red, black, and white which enhance the chromed base and steel-coloured details. The knob allows you to choose between two speed levels, managing the preparations quickly and easily.

The personal blender includes two bottles that guarantee **maximum versatility** of use to suit all tastes and allow you to blend fresh ingredients to be consumed immediately or taken with you.

The 600ml BPA-free **Tritan™ Renew Bottles-to-go** are perfect for making fruit or vegetable-based smoothies for a healthy lifestyle. The cap with spout allows you to carry the bottle with you so you can enjoy drinks with fresh and healthy ingredients on the go.

The new **PBF01** personal blender is not only a **compact and handy tool** for home preparations, but also meets every need in a perfect combination of versatility and aesthetics.

Tritan™ Renew

Tritan™ Renew is made with 50% certified recycled content.* Tritan Renew is made through Eastman's molecular recycling technologies— which break down plastic waste into fundamental building blocks to create new materials. By replacing traditional fossil feedstocks with hard-to-recycle plastic, the molecular recycling diverts plastic waste from landfills and incinerators or from ending up as litter in the ocean. The material is highly durable, dishwasher safe and free of BPA.

*Recycled content is certified through a third-party mass balance allocation process.

SMEG

Founded in 1948, SMEG, whose name stands for "Smalterie Metallurgiche Emiliane Guastalla," is a proudly Italian company now in its third generation of the Bertazzoni family.
