MPN: FIBLCATT

Fibre Optic LC/UPC Attenuator 5dB

The MicroConnect Fibre Optic Attenuator 5dB (FIBLCATT) is an essential tool for managing signal strength in fiber optic networks. This ST-ST attenuator is expertly designed to reduce the optical power by 5dB, preventing receiver overload and ensuring optimal performance in sensitive fiber optic systems. Ideal for use with various ST-ST cable connections, this attenuator guarantees reliable signal transmission and minimizes signal degradation. Benefit from MicroConnect's 20+ years of experience in delivering high-quality connectivity solutions, ensuring your network operates smoothly and efficiently with this premium fibre optic attenuator.
