

DREAME

L50 Ultra

Conquer steps, clean without limits

Dreame L50 Ultra

Robot Vacuum and Mop with Auto-Empty and Mop Self-Cleaning

Take obstacle crossing to a new, upgraded level with the advanced ProLeap™ system. L50 Ultra smoothly climbs up to 6cm* high, navigating door tracks, double-layer thresholds, and more without collisions. Its powerful 19,500Pa suction and the HyperStream™ Detangling DuoBrush leave your home spotless, collecting tiny dust and large debris while reducing hair tangles.

Key Features

Intuitive Movements for Uninterrupted Cleaning

Experience quiet cleaning without barriers. With the help of the ProLeap™ system, L50 Ultra swiftly passes through up to 6cm* steps, double-layer thresholds, and U-shaped furniture without getting stuck on them.

Powerful Debris Pickup, Intense Vacuuming

Capture diverse debris from hard floors and carpets with 19,500Pa* Vormax™ suction. Equipped with a sixth-generation TurboForce fast motor, L50 Ultra picks up large particles like cat litter, paper scraps, and more.

Dual Brushes Grant Tangle-Free Results

With the help of the unique HyperStream™ Detangling DuoBrush, L50 Ultra improves cleaning performance on different types of flooring, picking the hair and achieving 100%* hair detangling.

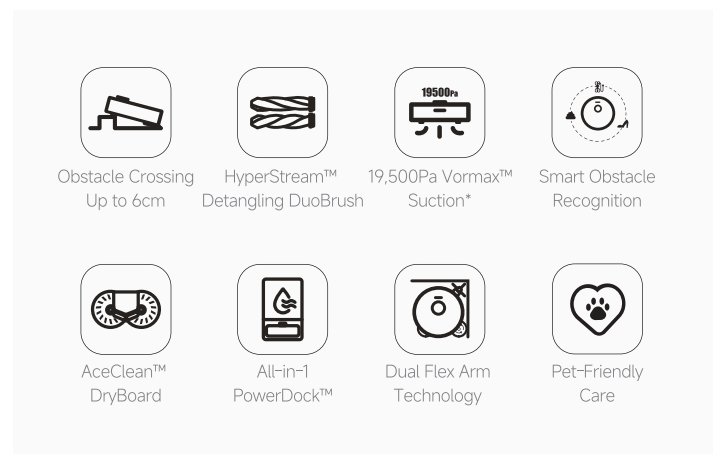

Keep Your Dock Fresh with a Self-Cleaning Board

Utilizing 20 high-temp spray nozzles, L50 Ultra autonomously cleans and dries the AceClean™ DryBoard during mop washing, minimizing foul odors and water residue for a consistently fresh dock.

Specifications

Package List of Robot Vacuum and Base Station

*The illustrations in this manual are for reference only. Please refer to the actual product.

*6cm: The gap between steps should be greater than 4cm. For a single obstacle crossing and a single vertical step, the highest obstacle crossing height is 4.2cm. Based on our in-house lab testing. Actual results may vary depending on environmental factors.

*19,500Pa: Based on tests in our in-house lab. Actual performance may vary depending on usage.

*100% hair detangling: Based on our in-house lab data. Actual results depend on the environment.
